

SHIRIUM **Foundation**

Teh promised land

SHIRIUM.org

Contents of Teh Manifesto

A deep dive into the **SHIRIUM** Foundation, SHI and You:

- An introduction to **SHIRIUM** and its core principles. **DPOS mechanics**. A true **peoples chain**
- Why **SHIRIUM**: **a need for perpetual throughput of decentralization**
- The role of **Three** Brothers, and their various contributions
- A **works** section, where you'll find out how it is purpose built
- **General Information**
- Details on:
 - How to **become a Validator**
 - An outline of SHI **principles**. This is where you make teh plunge into True **Decentralization**
 - What you can do to **increase adoption**, why adoption is critical for chain maintenance
 - **SHIRIUM** for **social responsibility**

Welcome to a new world

Zip Zap!

That's how quick the underlying distributed ledger system at ***SHIRIUM*** is!

With Block gas limits that make transactions seem near cost-less

An Introduction to *SHIRIUM*

01

Elevated L1

DPoS based consensus mechanism for irreversible validation

02

EVM compatible

Bridge, Build, Interact seamlessly as if on any of the legacy chains

03

Community

At the heart of everything *SHIRIUM*

04

SHI

The heartbeat of the *SHIRIUM* Chain

Shared Vision

A gateway to a more inclusive and decentralized community owned Chain

Foresight

A keen eye on the future of wide-scale Digital Asset adoption

Privacy

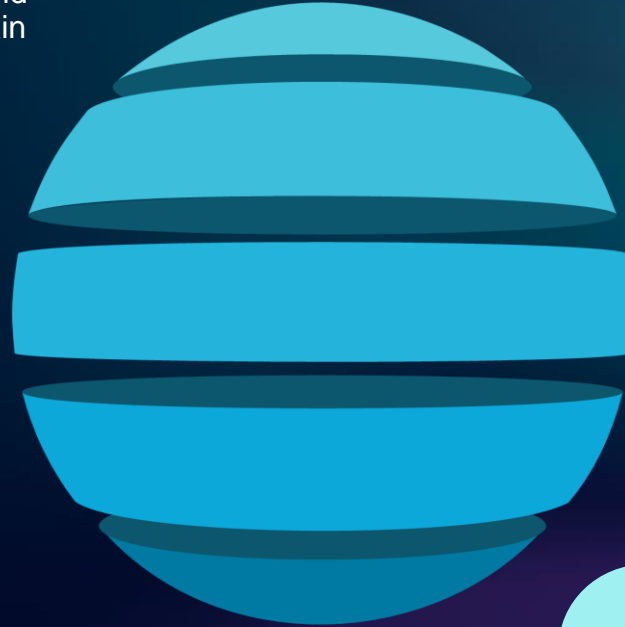

Providing a safe, secure and private arena for Blockchain enthusiasts

Accessibility

Multi chain compatibility allowing for everyone to explore **SHIRIUM** at ease

Fun

Embracing the joys of Blockchain technology from the grassroots

Speed
xTPS
Scalable

DPoS
Validation
Inclusive

You
Community
Governed

Grow
Future
Ready

TEH VISION

Make Blockchain Technology
accessible to all, owned by all

Tech

People

TEH MISSION

Increase Adoption, Lower Costs,
Eliminate barriers of entry

Effort

Outcome

PANTOMIME

The low supply gatekeeper
Exchange custodian
Secure Wallet
Trade assistant

SHORI

The multi chain gateway
Privacy and Security provider
Decentralized Financer
Vaults and Lockers

SENKEN

The governor
Prime Validator
Social Channel
Heartbeat

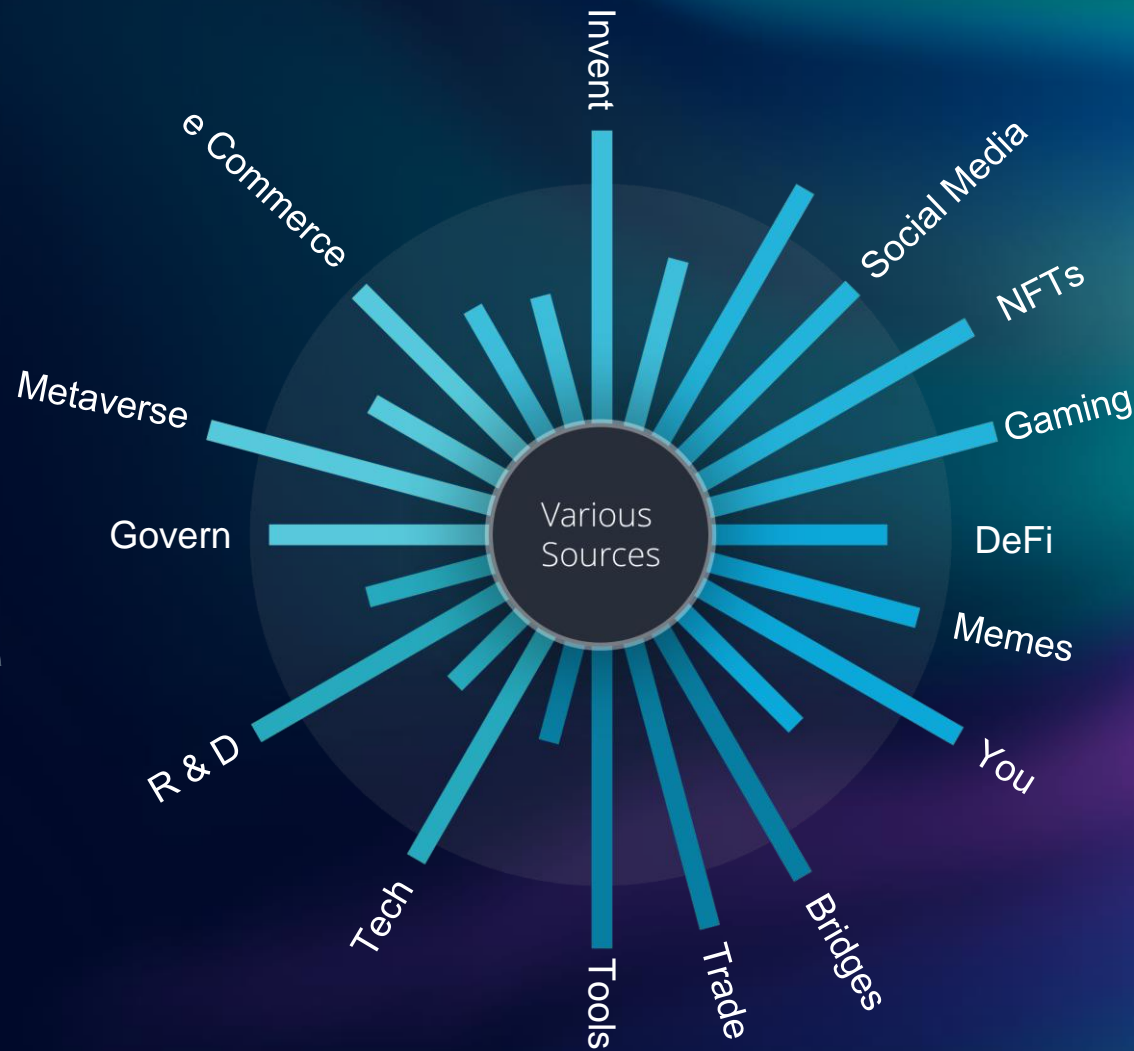

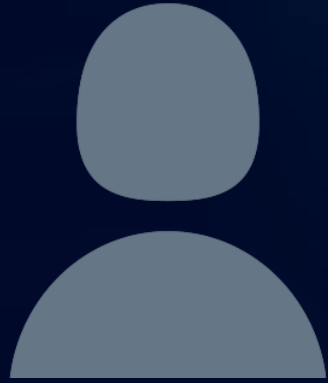

SHIRIUM

40% weightage

35% weightage

25% weightage

BUILD

Blockchain Developers will incubate the next leg forward for Crypto

USE

Community will be the actual growth driver on the roadmap

CHANGE

Transformative approach will enable widescale adoption

You are here

Manifesto Publication: **SHIRIUM**

Testnet Launch

Mainnet Launch

PERPETUATE
SHI

Governance Launch: Senken

Multichain Gateway Launch: Shori

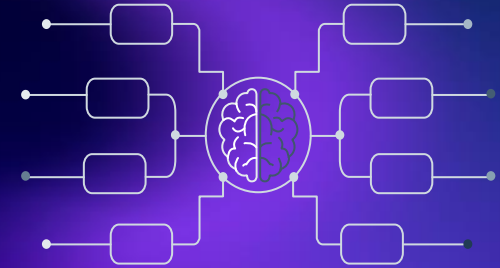

Gatekeeper Launch: Pantomime

Why *SHIRIUM*

The reasons are many, but below are the critical ones

- The world needs a truly decentralized community owned chain
- The industry needs a fast lightweight easy to use chain
- The people need a cheaper, accessible, inclusive chain

And the most important thing: Society needs to change its perception of Cryptocurrency

What's in it for **Teh Validators**

Support

You don't need a node to be a validator. DPoS allows you to delegate your holdings to an existing validator. Simply delegate and support the consensus for a transaction and add to the ledger

Reward

Delegate your staked **SHI** to a validator to increase weight in the network Validator standings. Receive block rewards as an incentive. The rewards size is proportional to the stake

The simple things that are *SHIRIUM*

HOW

Any smart contract or decentralized application (dApp) deployed on Ethereum or another EVM-compatible chain will also function if deployed on *SHIRIUM*

WHAT

SHIRIUM is designed to ensure fast block confirmation times and a low cost of transaction with scalable TPS

WHEN

TO BE REVEALED

A Chain is only as **Good** as its **Community**

SHIRIUM is designed to support,
nurture and incubate hidden
talent in the developer community
as well as provide for an exciting
platform for the users

COMMUNITY *SHIRIUM*

Use. Build. Govern. Play

Management Console

Metrics

Easily track chain metrics visually

Explore

Use the **SHIRIUM** Explorer to traverse the chain

Build

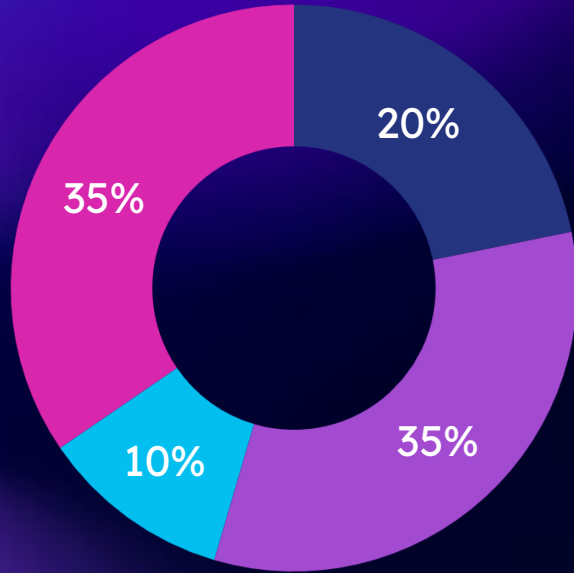

Bring your EVM knowledge to **SHIRIUM** and build the next big thing

DPoS

Participate in the Delegated Proof of Stake mechanism and earn **SHIRIUM** rewards

SHIRIUM Distribution

Proposed distribution of ***SHIRIUM*** across chains

ETHEREUM

Because this is where
it all started

BSC

Because teh degens
on BNB need ***SHI***

SHIRIUM

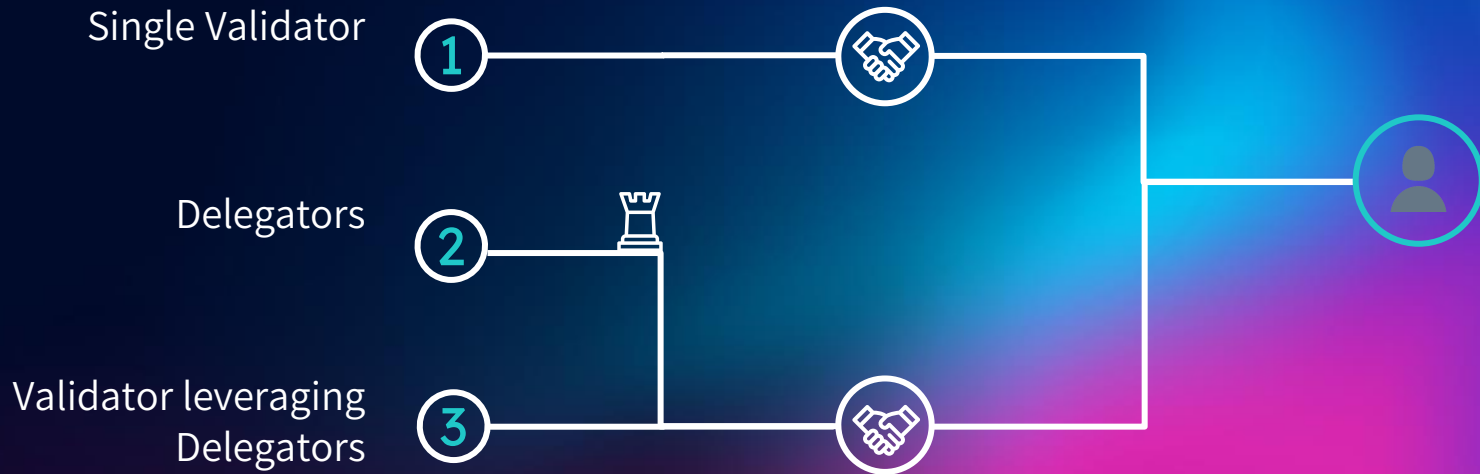

Because this is the
home stretch

SHIBARIUM

Because this is the
battleground

Simple DPoS based rewards and **GOVERNANCE**

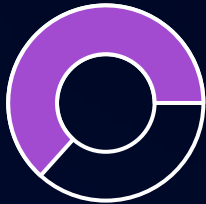

Chains are not only about **the Tech**

20%

Tech Dependence

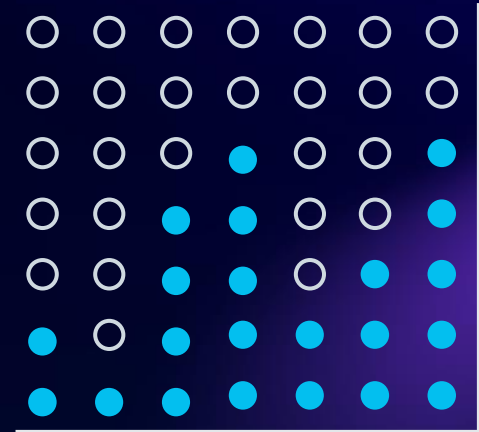

80%

Community Driven

SHIRIUM

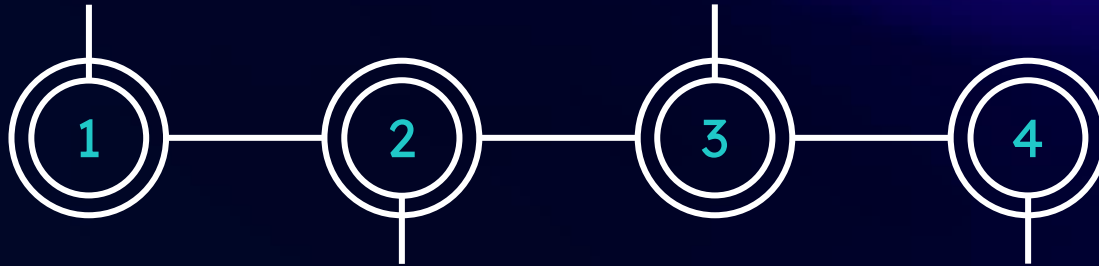

We do it for The People

Teh *SHIRIUM* way

Encourage Builders

Support Social Initiatives

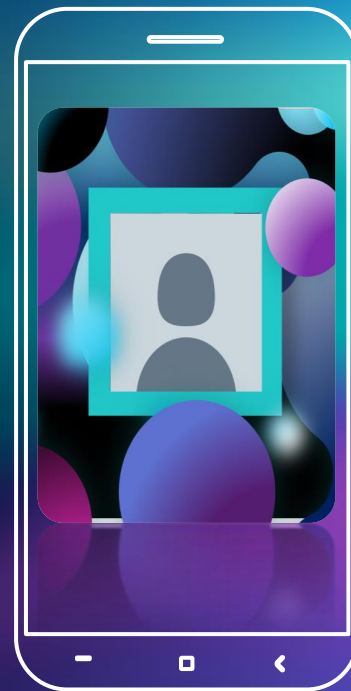

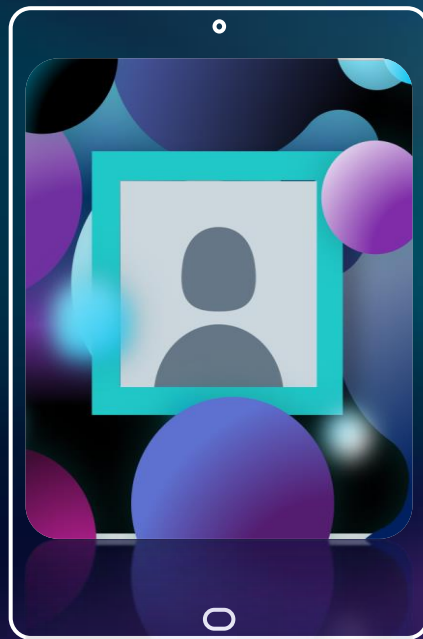

Nurture Communities

Propagate
Decentralized Privacy

Everywhere *SHIRIUM*

Make *BLOCKCHAIN accessible*

Teh *SHIRIUM Trinity*

PANTOMIME

- Teh Mime
- Toll-Gate to SHI
- C-DEX
- Dashboard
- Wallet
- E-commerce
